Intelligent Remote Indicator

The Advanced Intelligent Remote Indicator □20-VFI105-ADV□

This remote led indicator is an warning device used in installation where a detector goes to alarm is likely to occur behind a locked door, inaccessible rooms, or in a ceiling void to provide indication of the activation of a fire detector. The indicator's design widely applies to all kinds of commercial constructions requiring a local visual indicator such as process control, security and shut down operations, with its high reliability and ease of installation

Unique Features:

Flush or surface Mounting

Features:

- * Easy installation.
- * Wide viewing angle.
- * Low profile design.
- * Low power consumption.
- * High precision and stability.
- * Quick fire alarm transfer speed.
- * High accuracy of fire detection.
- * Twin led indicators

Intelligent Remote Indicator Specification Details

Operating Voltage	3VDC or 24VDC
Working Current	10mA
Indication	Red flash light
Dimension	85 x 85 x 35 mm
Operation Humidity	≤95%RH
Operation Temperature	-10°C to 50°C

Ordering Information

20-VFI105-ADV	Intelligent Remote Indicator
